PRIMARY EXAMINER

### REASONS FOR ALLOWANCE

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bang and Maeda et al. each disclose a spindle motor driving control of a disk drive device.

The following is an examiner's statement of reasons for allowance: the prior art of record considered as a whole fails to teach or suggest an optical disk reproducing device comprising velocity control means for determining a limit rotational velocity of the disk about which detected vibration or shock is excessive by varying a rotational velocity of the disk, and when data is read from the disk, causing the disk to rotate at a rotational velocity which is not higher than the limit rotational velocity.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul W. Huber whose telephone number is (703) 30-1549.
